## **ACSF Announces Magellan Jets' CEO, Joshua Hebert, as New Chairman**

*Former Chairman, Mike Graham, To Become the Newest Member of the National  
Transportation Safety Board*

**BOSTON, MA – July 10, 2019** — This month, Joshua Hebert, Founder and CEO of Magellan Jets, will become Chairman of the Air Charter Safety Foundation (ACSF), where he currently serves as Vice-Chairman. Hebert founded Magellan Jets in 2008 and has since grown the business into the most prestigious private jet charter company. The ACSF recognized the impact of his expertise and commitment to safety, giving him influence in aviation on a broader scale.

Former Chairman, Michael Graham, Director of Flight Operations Safety, Security & Standardization at Textron Aviation, with a deep background in aviation safety, has been selected by the White House to become the newest member of the National Transportation Safety Board. Graham will fill out the remainder of a five-year term that expires Dec. 31, 2020, succeeding Earl Weener who has served on the Board since 2010.

Hebert says, *“I’ve been on the Board of the Air Charter Safety Foundation (ACSF) for the last five years, and it’s one of my greatest honors to be appointed as Chairman. At Magellan Jets, safety is paramount and something I’ve been passionate about in the 20 years I’ve spent in the private jet industry. I have big shoes to fill, succeeding Michael Graham.”*

Magellan Jets works synergistically with ACSF through its commitment to safe aviation. The company sits at the forefront of secure travel in private flying. Hebert’s promotion is a testament to both his notable leadership and the success of Magellan Jets. In addition to sitting on the board of the ACSF, Hebert leads as Chairman of the Magellan Jets Board and Founding Chair of the Alumni Advisory Board for Raising a Reader Massachusetts. He further acts as a captain of the industry as a member of the Young Presidents’ Organization (YPO) and a finalist for Entrepreneur of the Year.

“Joshua has been an invaluable Vice-Chairman and member of the ACSF Executive Committee and Board of Governors,” said ACSF President Bryan Burns. “With his leadership, knowledge and creative ideas in the aviation industry, he will make an excellent Chairman. He has a proven record to support and promote the foundation's ongoing risk management programs.”

Magellan Jets sales have steadily increased by 35% per year, thanks to a team headed by Hebert's credentials. Magellan has been featured on Boston Business Journal's Pacesetters (now Fast 50) list, SmartCEO's Future 50, and the Inc. 5000 list of Fastest Growing Private Companies in America, one of the most prestigious rankings of private companies, on which Magellan Jets has landed for the 6th time. This accomplishment is shared by only 3% of companies on the 2018 list and puts Magellan in the Inc Hall of Fame.

### **About Magellan Jets**

Magellan Jets is a Boston-based private aviation solution provider built on a foundation of integrity, reliability, and trust. Founded in 2008, Magellan Jets' innovative model offers jet-specific memberships and on-demand charter services designed to provide the freedom and exceptional personalized service that private travelers expect. Magellan Jets and its FAA-licensed Flight Support team ensure that every detail is tailored to exceed expectations. Safety, security, and an uncompromising focus on hospitality combine with the most exclusive network of aircraft in the skies to let travelers experience private aviation the way it was meant to be, purely private.

### **About the Air Charter Safety Foundation**

The vision of the ACSF is to promote and enable the highest levels of safety in personal and business aviation. This goal will be achieved by the promotion and facilitation of risk management programs, advocacy and support for the industry adoption of a common audit standard, dissemination of safety information and creation of additional programs that advance the goals of the Foundation. The mission of The Air Charter Safety Foundation is to lead and support the advancement of the highest safety standards available to allow the business, charter and fractional ownership industry to offer the safest air transportation products in the world and to provide objective information about these standards and services to the public. For more information about The Air Charter Safety Foundation, visit [www.acsf.aero](http://www.acsf.aero).
